Calling the variables

current.variable
forecast[x].variable (x is day number 0-6)
hour[h].variable (h is 0 - 47)
minute[x].variable (x is 0 - 60)
alert[x].variable (x is 0 or 1)
history[x].variable (x is 0-24, 0 is current, 1-24 are hours of day since 00:00:00)

The // following the variables is just an example, not required to be called.
